PROFESSIONAL AUTOMOWER® ROBOTIC MOWERS

PERFECT CUT.
LESS NOISE.
MORE PROFIT.

Robotic mowers are the perfect addition to the fleet of any green care company. While they tirelessly spend their days producing a carpet-like lawn quality, you can spend your days doing other things. And since our professional robotic mowers all come with Husqvarna Fleet Services™ built-in, you can control them from anywhere.

500-SERIES

RELIABLE DESIGN FOR PROFESSIONAL WORK

The new 500-series robotic mowers have been specially developed for professional use. High quality brushless motors, stainless bearings and rubber sealings ensure long-lasting functionality in the tough outdoors. Their rubber bumper increases durability, while a more robust user interface reduces the risk of tampering. Additionally, they come with a lifetime subscription to Husqvarna Fleet Services™, giving you total control and easy monitoring from your computer, smartphone or tablet.

**HUSQVARNA
AUTOMOWER® 550/550H**

HUSQVARNA FLEET SERVICES™

THE PROFESSIONAL WAY TO MANAGE YOUR ROBOTIC MOWERS

When you invest in our commercial robotic mowers, you also get access to Husqvarna Fleet Services™ – a digital tool allowing you to monitor and control all of them easily from your smartphone, tablet or laptop. Just as simple as it should be.

A Message from LICA

As we start our 119th year of service, we are committed as ever to the success and future of Long Island Cauliflower Association. John E. Bokina JR, CEO, the board of directors some of who are descendants of our founders, and the employees look forward to continuing to grow and keep Long Island Cauliflower the #1 farm and garden center of LI.

Our goal is to provide the finest quality products and services to our customers and to do so more efficiently and economically than our competitors. By satisfying our customers' needs we ensure they will continue to do business with us and will recommend us to others. This includes not only expanding our already extensive product line but to also support in training and knowledge to serve the needs of all growers.

In 2015, Long Island Cauliflower expanded its growing business by opening up a RETAIL store. This has proven to be a wonderful growing experience for the business.

Here at Long Island Cauliflower, we serve not only the potato and vegetable growers, but the sod growers, grape growers, nursery men, landscapers, greenhouse growers, municipalities, school districts and the Home Gardener/landscaper.

Shop local, shop the best, shop Long Island Cauliflower Association.

ORGANIC®

PUT AN END TO CALLBACKS

Ensure Transplant Success with Bio-tone® Starter Plus

FOUR GENERATIONS OF PROVEN RESULTS

Professionals have been feeding and maintaining gardens with Holly-tone® and Plant-tone® for over 70 years. Now they know the best way to boost root growth and ensure transplant success is by starting with Bio-tone® Starter Plus. An all natural fertilizer fortified with beneficial microbes, humates, and mycorrhizae, Bio-tone Starter Plus helps roots establish faster, grow deeper, and resist stress. Eliminate expensive callbacks due to plant loss by using Bio-tone Starter Plus for everything you plant.

Espoma. A natural in the garden since 1929.

**We Also Carry
SNOW SHOVELS**

**NEW! Cutting Edge®
Pro PowerMelt+**

Cutting Edge® Pro PowerMelt+ is a unique and effective ice melt blend infused with Calcium Chloride, Potassium Chloride, and Sodium Chloride using Patent Pending Breakthrough Infusion Technology.™

**ICE MELTS
Selection**

Rock Salt

Optimally screened for use in salt spreaders and to maximize coverage. Economical.

ProSpeed Ice Melter

Designed for high-performance need. Optimized blend of calcium chloride and traditional melting salt generates heat to melt ice and snow faster and longer than rock salt alone. Melts as low as -25°F. Calcium Chloride and Sodium Chloride.

Safe T Pet

A safer choice for pets. Developed with, and recommended by Veterinarians. 100% salt and chloride-free, it won't irritate paws, safer for plants, pets and concrete. Blue color for better visibility. Proven to melt snow and ice -10°F and above. Contains Urea and Propylene Glycol.

BLUE HEAT

with Calcium Chloride Pellets

Considered to be one of the highest grade ice melters. It has enough Calcium Chloride Pellets to melt snow and ice down to 25 degrees below zero. In addition, it also has a slight blue tint. The blue tint lets consumers know where the product has already been applied thereby avoiding over-application. **Blue-Heat** does not chemically attack concrete and is safer to use than low grade ice melts.

**50-LB
PAIS
AVAILABLE**

Natural Ice Control

100% Organic made from natural beet juice with pure rock salt added. It is less corrosive, safer for children and pets, safer for vegetation. Saves you time and money and reduces salt use by 30%.

Calcium Chloride Pellets

It has been recognized by the industry as the most effective ice melter. It melts ice upon contact and is among the most powerful substances available today for melting snow and ice. Most De-icers become virtually ineffective once the temperature drops below 20 degrees while Peladow keeps on melting even at temperatures as cold as 25 degrees below zero. It is also safer to use and does not chemically attack concrete.

All Your Landscape Needs from One Source!

LebanonTurf is the only company that offers both microbiological components along with advanced controlled release fertilizer products delivered as part of an integrated "Best of All Worlds®" system's approach to turf and plant care needs. We continue to explore and develop the industry's most advanced technologies to deliver the ultimate in efficient, cost effective lawn operations.

LebanonTurf offers ProScape and Lebanon Pro fertilizer and combination products in an easily and accurately applied granular product. In the ProScape brand you will find exclusive technologies such as Meth-Ex®, a high efficient methylene urea and MESA®, a specially formulated nitrogen that delivers brilliant color response. Lebanon Pro is a cost-effective blended fertilizer providing a practical approach in a wide range of lawn, landscape and general turf situations. Lebanon Pro contains LSN to ensure that nitrogen gets delivered to the turf and does not escape into the atmosphere through volatilization.

MESA®
Patented Controlled Release Nitrogen

METHEX 40

LSN®
LebanonTurf Stabilized Nitrogen

The ROOTS® brand of biologically enhanced nutrients merge nature and technology to offer leading edge solutions for turf and plant care. ROOTS provides an all-in-one nutrient delivery system that feeds the plant while enhancing the biological life of the soil and plant ecosystem and provides consistent color response, improved turf density and enhanced root mass.

LebanonTurf's selections of award-winning seed varieties have been chosen after careful research and development to deliver quality and performance.

STRENGTHEN & NOURISH FOR HIGHER YIELDS

For higher yields, strengthen and nourish your crops. Megafol® is a foliar nutrient supplement that strengthens crop vitality and helps crops recover more quickly from growing stresses. Hydra-Hume® helps prevent nutrient tie-up by improving nutrient availability, while improving soil structure and aggregation to allow for better water movement.

To strengthen and nourish your crops, contact your local Helena representative or visit HelenaAgri.com for more information.

Stop Botrytis Before it Gets Started

Botector®

Beneficial microorganisms in Botector® outcompete the botrytis pathogen for space and nutrients, and create a protective barrier between the plant and potential disease.

- Efficacy is comparable to conventional fungicides
- No development of pathogen resistance
- Ideal for use in Integrated Pest Management programs
- No pre-harvest interval or MRL restrictions
- Safe for bees and beneficial insects

Lawn and Commercial Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

LICA Elite Turf Mixture #1

This Elite mix was developed to respond well to a high maintenance schedule of grooming, irrigation, and fertilization. All varieties of Bluegrass are blue-tagged certified. This mixture features disease resistance and dark green color grasses for a "sod quality" lawn.

Seeding Rate: 4-6 lbs/1000 sq. ft.

30% Zinfandel Kentucky Bluegrass
20% Ambrose Chewing Fescue
5% Exacta II Perennial Ryegrass
30% Diva Kentucky Bluegrass
5% Secretariat II Perennial Ryegrass
10% Baron Kentucky Bluegrass

5 lbs.	25 lbs.	50 lbs.
\$32.50	\$137.50	\$245.00

LICA Sunny Mixture #3

Versatile, tough and attractive. This mixture will respond well to a medium to low maintenance schedule of fertilization and grooming, plus gives you the drought tolerance where lack of moisture may be a problem. This mixture has excellent adaptability to various soil conditions as well as excellent disease resistance.

Seeding Rate: 6-8 lbs/1000 sq. ft.

30% Diva Kentucky Bluegrass
20% Exacta II GLS Perennial Ryegrass
30% Ambrose Chewing Fescue
20% Secretariat II Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$25.35	\$112.25	\$190.00

LICA Sun & Shade Mixture #2

The elite variety of bluegrass, fine leaf perennial ryegrass, and red fescue that we have selected, will give you the combination of dark color, disease resistance, traffic tolerance, and shade tolerance that the quality conscious homeowner needs. This is an excellent mixture for most lawns on Long Island.

Seeding Rate: 4-6 lbs/1000 sq. ft.

25% Mazama Kentucky Bluegrass
20% Aberdeen Creeping Red Fescue
10% Secretariat II Perennial Ryegrass
25% Ambrose Chewing Fescue
10% Metolius Perennial Ryegrass
10% Viking H20 Hard Fescue

5 lbs.	25 lbs.	50 lbs.
\$27.15	\$120.00	\$195.00

LICA Shady Mixture #4

We have blended shade tolerant elite Bluegrass and improved fine fescue with fine leaf perennial ryegrass for the best combination of shade tolerance and quick cover available. Because of the combination of shade tolerance and disease tolerance, this mixture will perform in environments where other lawn mixes just won't. This mixture will also do well in sandy, acidic soils or low maintenance areas.

Seeding Rate: 5-7 lbs/1000 sq. ft.

30% Eugene Creeping Red Fescue
20% Gladiator Hard Fescue
10% Shining Star Perennial Ryegrass
25% Ambrose Chewing Fescue
15% Mazama Kentucky Bluegrass

5 lbs.	25 lbs.	50 lbs.
\$25.85	\$116.50	\$193.75

(Lawn and Commercial Mixtures continued on next page)

Note: Mix Formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

Lawn and Commercial Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

LICA Tri-Rye Mixture #5

This blend of Fine Leafed Perennial Ryegrass varieties was developed for quality and consistency. We use varieties that provide a consistent disease resistant package, color and winter survivability from year to year. For quick and temporary cover, this blend will do an excellent job for you. Use for touchup and overseeding.

Seeding Rate: 6-8 lbs/1000 sq. ft.

35% Secretariat II Perennial Ryegrass
30% Palmer III Perennial Ryegrass
35% Charismatic Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$16.65	\$76.50	\$119.00

LICA Farmingdale Mixture #6

This is a standard mixture of Bluegrass, fine fescue, and improved fine bladed perennial ryegrass. Will do well on Long Island lawns at a reasonable price. Contains no annual ryegrass.

Seeding Rate: 6-8 lbs/1000 sq. ft.

30% 98/85 Kentucky Bluegrass
20% Secretariat II Perennial Ryegrass
30% Boreal Creeping Red Fescue
20% Charismatic or Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$21.00	\$88.75	\$140.00

LICA Team-Bronco Mixture #7

Excellent blend of turf type tall fescue for low maintenance, high traffic areas, such as playgrounds. Bluegrass added for appearance. Does well in sandy, droughty soil.

Seeding Rate: 8 lbs/1000 sq. ft.

30% Amity Tall Fescue
30% Rockwell Tall Fescue
30% Sidewinder Tall Fescue
10% Baron Kentucky Bluegrass

5 lbs.	25 lbs.	50 lbs.
\$21.50	\$85.00	\$132.00

LICA Tall-Ryegrass 90/10 Mixture #8

Tri-Tall Fescue Rye 90/10 Mixture is a blend of three elite turf-type tall fescues specifically selected for Long Island exhibits outstanding dark green color and fine texture with improved mow-ability and is one of the most drought and wear tolerant of cool season grasses. Ryegrass added for speed and soil retention.

Seeding Rate: 8 lbs/1000 sq. ft.

30% Diablo Tall Fescue
30% Stika Tall Fescue
30% Sidewinder Tall Fescue
5% Pharaoh Perennial Ryegrass
5% Secretariat II Perennial Ryegrass

Call for pricing

LICA Super Tuff Mixture #9

A mixture of dwarf and low growing varieties. Requires less mowing, watering and maintenance. Entophytes provide natural insect resistance. Use in sun or shade.

Seeding Rate: 6-8 lbs/1000 sq. ft.

25% Boreal Creeping Red Fescue
25% Ambrose Chewing Fescue
50% Secretariat II Perennial Ryegrass

5 lbs.	25 lbs.	50 lbs.
\$19.85	\$76.00	\$137.00

Forage Mixtures

LICA Tastie Grazing Pasture Mix

Nutritious grasses for livestock. Fescue increases drought tolerance. Low entophyte. Diploid perennial rye added to increase forage capabilities. Clover added upon request.

Seeding Rate: 50-100 lbs/Acre

30% Extend Orchard Grass
20% Gain Festulolium
15% Tetra Sweet Tetraploid
15% Climax Timothy
10% 98/85 Kentucky Bluegrass
10% Teton II Tall Fescue

<u>25 lbs.</u>	<u>50 lbs.</u>
\$122.25	\$244.50

Pasture Perfect Show Horse

It is a mix of highly palatable varieties that make super quality forage. Excellent season long forage. Can also be used for hay.

Seeding Rate: 35-50 lbs/Acre

40% Tekapo Orchard Grass
30% Duo Festulolium
5% Tuukla Timothy Bluegrass
20% Tonga Tetraploid Ryegrass
5% Ken-Blue Bluegrass

<u>25 lbs.</u>	<u>50 lbs.</u>
\$137.50	\$235.00

LICA Paddock Mix

This mixture is made of grasses that have been selected because they are well suited for horses and are more durable than other pasture grass varieties. Even though this mix is more durable than conventional pasture mixes, it is important (as with all pasture plantings) to allow the grass to properly establishes **before** you allow your horse back into the planted area and to rotate out of the paddock to maintain the viability of the grasses.

Seeding Rate: 50-100 lbs/Acre

35% Tetra-Maga Ryegrass
20% Boreal Creeping Fescue
30% Goliath Tall Fescue
10% Climax Timothy
5% 98/85 Kentucky Bluegrass

<u>25 lbs.</u>	<u>50 lbs.</u>
\$92.50	\$160.00

Beef Bank Northern Mixture

Beef Bank is the only proven High-Sugar Grass mixture formulated for progressive US cattle operations. High Sugar Grasses are extremely drought and cold tolerant. It pasture will regenerate each year — even after difficult weather conditions. The increased sugar levels occur naturally, and do not require extra fertilizer. The naturally quick growth rate of HSGs crowd out weeds and reduce the need for herbicides even on heavily grazed paddocks.

Seeding Rate: 10-15 lbs/Acre

<u>25 lbs.</u>	<u>50 lbs.</u>
\$113.00	\$204.50

(Forage Mixtures continued on next page)

Note: Mix Formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

Lawn and Commercial Mixes

Forage Mixes *(continued)*

Pasture Sweet'ner Northern Mixture

Improve the quality of existing pastures with SucraSEED's high-sugar grass mix for over seeding. The naturally quick growth rate of HSGs crowd out weeds and reduce the need for herbicides even on heavily grazed paddocks. SucraSEED mixes' rapid re-growth is extraordinary, delivering tremendous yields. This can allow farms to take hay crops after a full season of grazing.

Seeding Rate: 15-18 lbs/Acre

<u>25 lbs.</u>	<u>50 lbs.</u>
\$129.64	\$226.88

Sweet Spot Northern Mixture

Sweet Spot mixes feature High Sugar Grasses. These unique perennial ryegrasses can produce bigger racks and as much as 20% more body mass. Sweet Spot is a perennial wildlife mix that establishes quickly, winters well and creates fool-proof food plots year after year. High Sugar Grasses are extremely drought and cold tolerant.

Seeding Rate: 15-20 lbs/Acre

<u>10 lbs.</u>	<u>20 lbs.</u>
\$95.00	\$158.00

Wildlife Ultimate Plus Mixture

A perennial mixture of forage chicory, grazing clovers and grazing alfalfa.

Seeding Rate: 12 lbs/Acre

<u>3 lbs.</u>	<u>6 lbs.</u>
\$33.99	\$58.27

Wildlife Chicory/Clover Mixture

An elite mixture of perennial grazing varieties to provide high protein and drought tolerance.

Seeding Rate: 12 lbs/Acre

<u>3 lbs.</u>	<u>6 lbs.</u>
\$34.00	\$58.29

Wildlife Grazing Mixture

A superior perennial legume food plot mixture that is high in protein and developed for shallow or poor soil conditions.

Seeding Rate: 12 lbs/Acre

<u>3 lbs.</u>	<u>6 lbs.</u>
\$38.52	\$66.03

Wildlife Brassica Mixture

Formulated to be late season harvest since the leafy area will tend to taste bitter until heavy frost. Once the Brassicas are found wildlife will consume leafy area which will stay palatable until the early winter, then graze on the bulbs.

Seeding Rate: 5 lbs/Acre

<u>2.5 lbs.</u>	<u>5 lbs.</u>
\$20.17	\$34.57

Because of the availability and cost not all grasses are in stock. They can be ordered at any time.

KWS TINKA MALTING BARLEY European 2-row malting barley from KWS. 2nd highest yielding barley in Cornell trials. Above average tolerance to FHB. Medium height, medium maturity. TBD

AAC SYNERGY MALTING BARLEY. Spring widely adapted 2-row variety, produces heavy, plump kernels and short, strong straw with good resistance to lodging. Desirable malting quality profile with higher malt extract. TBD

Cut and Wildflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Bachelor Button

FS-BB-BA: Sometimes referred to as a Cornflower. A drought tolerant annual, grows 2 to 3 feet tall. Prefers full sun in various soil types. An outstanding performer for cutting or admiring.

Oz	1/4 lb	1-4 lbs
\$2.50	\$3.80	\$15.15/lb.

Cosmos Mix

FS-CO-MX: A hardy, erect annual requiring very little moisture once established. The attractive flowers are a mixture of stunning deep crimson, soft pink which can grow to be 2 to 3 feet tall. Requires full sun.

Oz	1/4 lb	1-4 lbs
\$2.50	\$5.45	\$21.85/lb.

Cosmos White

FS-CO-WH: A hardy, erect annual requiring very little moisture once established. The attractive flowers are pure white which can grow to be 2 to 3 feet tall. Requires full sun.

Oz	1/4 lb	1-4 lbs
\$2.50	\$6.30	\$25.50/lb.

Marigold Crackerjack

FS-MA-CRAC: Annual. Height 2½ to 3 feet. Very popular large flowering variety. Large flowers average 4 inches in diameter. Flowers range in shades of yellow, gold and orange. Ideal for garden color or as cut flowers.

Oz	1/4 lb	1-4 lbs
\$2.50	\$4.60	\$17.50/lb.

Nasturtium (Jewel)

FS-NA-NAST/JEWLB: A low bush or trailing plant 8 to 12 inches tall. Trailing plants may extend almost a yard. Leaves are bright green and rounded and the bright flowers come in several colors. Nasturtiums are an attractive and nutritious addition to salads, as the flowers are edible.

Oz	1/4 lb	1 lb
\$2.50	\$4.00	\$15.85

Royal Mix - Sweet Pea Seeds

Truly an old-fashioned flower, sweet peas have been cultivated since the 1800's. Exceptional fragrance. Large 2" blossoms in bright, clear colors of red, purple, mauve, pink, blue, and white. Blooms over a long period with exceptional fragrance.

1/4 Oz	Oz
\$2.50	\$5.50

Corn Poppy Red

FS-PA-RR: Annual flower, they are 2 to 2½ feet in height. The large 2 to 4 inch blooms are fire engine red. Prefers well-drained soil in full sun to partial shade. Performs best if sown in early spring in the northern regions.

Oz	1/4 lb	1-4 lbs
\$2.50	\$8.65	\$31.25/lb.

Norlin Blue Flax

FS-WF-FL: They are 12 to 14 inches high. Numerous light blue, cup-shaped flowers bloom well into the summer. Prefers dry, full sun areas in light sandy soil. Flowers last only a single day.

Oz	1/4 lb	1-4 lbs
\$2.75	\$11.20	\$44.90/lb.

Black Eyed Susan

No summer garden is complete without the bright, cheerful splash of color of Black Eyed Susan. This 12-36 inches tall plant is versatile, drought-tolerant and easy-to-grow variety illuminates the landscape with golden blooms. It is a native plant and will attract pollinators to the garden or meadow all summer long.

Oz	1/4 lb	1-4 lbs
\$2.50	\$8.80	\$35.20/lb.

California Giant Zinnia

FS-ZI-CG: This mix offers 4 to 6 inch flowers in an almost limitless range of colors. For long, hot summers. Excellent in large pots or containers in sunny, warm spots.

Oz	1/4 lb	1 lb
\$2.50	\$7.50	\$28.95

(Cut and Wildflowers continued on next page)

Cut and Wildflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Cut and Come Again Zinnia

FS-ZI-CC: The Zinnia "Cut and Come Again" produces 2 to 3 inch flowers in shades of orange, pink, rose, magenta, yellow, cream and scarlet. When flowers have been cut off, these easy to grow plants will replace them in a short period of time.

Oz	1/4 lb	1 lb
\$2.50	\$5.60	\$22.30

Giant Dahlia Zinnia Mix

FS-ZI-GDZ: Produces 4 to 6 inch single, semi-double, and double flowers. A mix of yellows, roses, scarlet, green, orange, pink, red, purple, coral, and orange and gold bicolor. Height 40 to 50 inches.

1/4 oz	Oz	1/4 lb
\$2.50	\$10.85	\$35.90

Wildflower Mixes

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Long Island Wildflower Mixture

This is a mix of annual and perennial wild flower selected for the Long Island conditions.

Mix components: Baby's Breath, Cornflower Larkspur, Rocket Flax, Blue Coreopsis, Lance-Leaved Coneflower, Purple Daisy, Ox-Eye Poppy, Corn Dame's Rocket, Black-Eyed Susan Catchfly Yarrow, White Yarrow, and Gold.

Seeding Rate: 5 oz. per 1,000 sq. ft.
8-10 lbs./1 acre

Oz	1/4 lb	1 lb
\$2.50	\$5.95	\$24.40

Long Island Shade Wildflower Mixture

This mixture can tolerate shade conditions or filtered sunlight. It is a mix of annual and perennial wild flowers selected for the Long Island conditions.

Mix components: Forget-Me-Not, Chinese Candytuft, Baby Blue-Eyes Coneflower, Purple Coreopsis, Lance-Leaved Baby's Breath, Annual Larkspur, Rocket Poppy, Corn Daisy, Shasta Pinks, Sweet Williams, Chinese Houses, Snapdragon, Spurred Johnny Jump-up, Clarkia Columbine, Giant Columbine, Dwarf Forget-me-Not, Bellflower, Tussock.

Seeding Rate: 4 oz. per 1,000 sq. ft.
9-11 lbs./1 acre

Oz	1/4 lb	1 lb
\$2.75	\$8.20	\$32.80

All Season Mixture

This annual mixture provides an ever-changing rainbow of colors throughout the growing season.

Mix components: African Daisy, Annual Baby's Breath, Black-Eyed Susan, California Bluebell, California Poppy, Candytuft, Catchfly, China Aster, Chinese Forget-Me-Not, Corn Poppy, Deerhorn Clarkia, Dwarf Godetia, Dwarf Plains Coreopsis, Rocket Larkspur, Spurred Snapdragon and Virginia Stock.

Seeding Rate: 4 oz./1,000 sq. ft.
4-8 lbs./1 acre

1/4 lb	1 lb
\$6.95	\$28.60

Deer Resistant Mixture

This annual and perennial mixture is a blend of garden flowers and wildflowers that are known to be resistant to deer browsing. Keep in mind that if natural food supplies are low, or local populations of deer are dense, even these plants may be browsed by deer.

Mix components: Bergamot, Blue Sage, California Poppy, Four O'Clocks, Foxglove, French Marigold, Gaura, Gold Yarrow, Lavender, Lavender Hyssop, Lemon Mint, Perennial Lupine, Rocket Larkspur, Sweet Alyssum and Sweet William Pinks.

Seeding Rate: 4 oz./1,000 sq. ft.
4-8 lbs./1 acre

1/4 lb	1 lb
\$8.00	\$32.15

Long Island Lupine Wildflower Mixture

This is a mixture with high amounts of lupine along with a mix of annual and perennial wild flower selected for the Long Island conditions.

Mix components: Lupine, Perennial Wallflower, Siberian Daisy, Ox Eye Poppy, California Cornflower Flax, Blue Flax, Scarlet Baby Blue-Eyes, Cosmos Poppy, Corn Baby's Breath, Annual Catchfly, Columbine, Dwarf Maltese Cross Poppy, and Iceland Forget-Me-Not.

Seeding Rate: 4 oz./1,000 sq. ft.
8-10 lbs./1 acre

Oz	1/4 lb	1 lb
\$2.75	\$7.35	\$29.40

Cut Flower Seed Mixture

This mixture is composed of long-lasting cut flowers. Nothing brightens up a room like a vase of fresh flowers. Mix contains both annuals and perennials to provide cut flowers for many years to come.

Mix components: Annual Baby's Breath, Bishop's Flower, Blanketflower, China Aster, Clarkia, Cosmos, English Wallflower, Gloriosa Daisy, Iceland Poppy, Lance-Leaved Coreopsis, Mexican Hat, Painted Daisy, Perennial Lupine, Plains Coreopsis, Purple Coneflower, Rocket Larkspur, Shasta Daisy, Sulphur Cosmos and Sweet William Pinks

Seeding Rate: 7 oz./1,000 sq. ft.
10-20 lbs./1 acre

1/4 lb	1 lb
\$7.90	\$30.75

If these mixes do not meet your needs or you are looking for other flowers, call us and we will work with you to find just what you need.

Sunflowers

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Mammoth Grey Stripe

Bright, golden-yellow flowers up to 10" across. Attracts birds. Each plant produces one flower. Great-tasting seeds for roasting and snacking. Height: 72 to 84"

Oz	1/4 lb	1 lb
\$2.50	\$4.75	\$13.50

Autumn Beauty

Bold, beautiful flowers up to 8" across. Bright yellow, bronze, and purple shades with some bicolor. Multi-branching; produces many long stems. Height: 60"

1 oz	1/4 lb	1 lb
\$2.50	\$4.10	\$15.95

Lemon Queen

Abundant lemon yellow flower. 6" blooms. Dark centers. Height: 5"

1 oz	1/4 lb	1 lb
\$3.90	\$15.60	\$62.38

Soraya

It has larger flowers and thicker, sturdier stems. Tangerine petals, dark center. Branches average 20" and sport 4" to 6" blooms. May yield as many as 20 to 25 stems/plant.

1/16 oz	1/4 oz	1 oz
\$2.55	\$9.80	\$38.55

Ring of Fire

Single petal develop dark red around the base of each; yellow tips with a dark center; disc 5" to 6" in size. Branching. Height: 40 to 50"

1/16 oz	1/4 oz	1 oz
\$2.50	\$8.65	\$34.60

Teddy Bear

The final height depends on the size of the container. Expect 8 to 12" plants from seeds directly sown in a 4" pot. This branching variety will host 3 to 5" sunny, shaggy blooms. Height: 8 to 12 inches in containers; 35 to 42" in garden.

1/4 oz	1 oz	1/4 lb	1 lb
\$2.50	\$4.00	\$16.95	\$59.58

Sunspot

One of the easiest flower seeds to

grow, are great for containers and flower beds, and they only reach 24 to 36" tall with an average sized single 10" head.

1/4 oz	1 oz	1/4 lb	1 lb
\$2.50	\$4.10	\$16.05	\$65.92

Velvet Queen Sunflower

Deep velvety crimson blooms accented with traces of yellow around a black center. The plants are free branching, bearing lots of 5-6" blooms that are lovely for cutting. Can reach height of 5' tall.

Oz	1/4 lb	lb
\$3.90	\$15.60	\$62.38

Dwarf Sungold Sunflower

This unique Sunflower has an extremely soft texture and is truly a fun statement in the garden. A shorter variety, is perfect for the border of the garden and makes fabulous cut flowers. Can reach height of 24-36" tall.

Oz	1/4 lb	lb
\$2.50	\$7.50	\$29.75

Production Sunflower

We also carry a production Sunflower. The variety changes every year. Listed is the production price. The price starts at 1/4 lb. to pound price. It is a black oil hybrid that is excellent for bird seed. 4 to 6" plant with a 6 to 8" flower. Price will drop after 5 lbs.

1/4 lb	lb
\$6.50	\$20.25

Zohar F1 Organic Sunflower

A pollen-free hybrid. The mid-height single stemmed plants produce flowers with crisp clean orange-gold petals and a dark disk. Flower diameter is approximately 4-6" and can expand to 7 or 8" if plants are spaced further apart. It is

produced organically and is certified as organic seed. For organic producers, it is the best variety to grow that are closest to the market leading Sunrich Orange and Pro Cut Orange.

1M
\$37.10

Sunrich Series

Long considered the industry standard, the Sunrich varieties are ideal for cutflower production because they are pollenless and non-branching. When spaced 6" apart, flowers will grow to 5" to 6" in diameter on mid-height plants. Day length neutral. Matures in approximately 65 to 70 days.

1/16 oz	1/4 oz	1 oz
\$2.50	\$6.67	\$24.34

PROVEN SOLUTIONS FOR RELIABLE WEED, DISEASE AND INSECT CONTROL.

As an independent American developer and manufacturer, Prime Source continues to provide unique post-patent and specialty chemistries across the turf, ornamental, landscape and non-crop markets.

TRIAD SELECT™

A low odor, selective herbicide with the combined power of 3 herbicides.

- For use on both cool and warm season grasses
- Flexible application rates
- May be applied to woody brush in non-cropland areas

Pack sizes: 12 x 1 qt, 4 x 1 gal, 2 x 2.5 gal, 30 gal drum, 55 gal drum, 265 gal tote

TRIAD QC SELECT™

A 3-way selective, post-emergent herbicide containing quinclorac for broadleaf and grassy weeds including crabgrass.

- Residential and commercial use
- Perfect late season clean-up where no pre-emergent was used
- Foliar and systemic absorption

Pack sizes: 12 x 1 qt, 4 x 1 gal, 2 x 2.5 gal

MESO 4SC SELECT™

Provides both pre- and post-emergent control of tough-to-control weeds in commercial and residential turfgrass, golf courses (except putting greens) and sod farms.

- Controls over 45 weeds and grasses
- Weeds controlled include crabgrass (pre- and post-emergent), ground ivy, yellow foxtail, yellow nutsedge and dandelion

Pack sizes: 12 x 8 oz, 4 x 1 gal

HALO 75 WDG SELECT™

Selective, post-emergent herbicide for use on residential, commercial turf and golf courses, and established woody ornamentals in landscape beds.

- Control of yellow and purple nutsedge
- Suppresses annual and green kyllinga
- Suppresses tough broadleaf weeds such as horsetail and ragweed

Pack sizes: 10 x 1.33 oz

AZPROP SELECT™

A combination of two active ingredients for the control of certain pathogens causing foliar, stem, and root diseases.

- Controls leaf and stem blights, leaf spots, patch diseases, mildews, anthracnose, fairy rings, molds, and rusts of turfgrass plants
- Labeled for use on lawns, golf courses and landscape areas

Pack sizes: 12 x 1 qt, 4 x 1 gal, 2 x 2.5 gal

ZELTO® INSECTICIDE/NEMATICIDE

A biological insecticide/nematicide for control of plant parasitic nematodes and soil dwelling pests such as white grubs.

- Surface and subsurface insects
- OMRI Listed (minimal PPE required)
- Perfect substitute for Imidacloprid sensitive areas

Pack size: 4 x 1 gal

Bi Color Corn Seeds

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Espresso

69 days. Excellent cold soil vigor. This synergistic bicolor produces 8" ears and has a great plant type for an early variety. Its tender kernels fill the ear well to the tip in 14-16 straight rows and are covered with a tight husk and dark green flags. The sturdy 6' plants hold their ears at 20". Intermediate resistance to common rust and Stewart's bacterial wilt. Use for early plantings only. Not recommended for use as a mid-season filler.

1/4 lb	1 lb	M
\$9.45	\$37.60	\$12.90

Montauk

79 days. Large, sweet ears. Has become a grower favorite for its girthy, eye-appealing 8" ears, outstanding eating quality, and very high yield potential. An exceptional husk package with dark green flag leaves covers the tip well, and ears snap easily off the 6½ to 7' clean and sturdy plant. The cylindrical ears are filled well to the tip with 16 to 20 rows.

1/4 lb	1 lb	M
\$11.56	\$46.24	\$15.63

Aces

78 days to maturity. Is a strong growing, Summer Sweet, supersweet bicolor that has shown good yield potential and wide adaptability. Its 8 to 8½" ears have good eating quality and are set at 24" on sturdy and clean 6' plants. Resistant to the new rust strains Rp1-GI and intermediate resistance to NCLB. Isolation required.

1/4 lb	1 lb	M
\$9.13	\$36.53	\$13.67

Providence

82 days. TripleSweet bicolor sweet corn. Has a superb eating quality that is suited for roadside and farm markets sales. 6½' plants hold ear at 24" and have intermediate resistance to common rust. Refined 8" ears have 14 to 18 rows.

1/4 lb	1 lb	M
\$10.14	\$40.54	\$12.57

Sweet Corn Raquel

72 days. This high quality, augmented supersweet bicolor offers excellent field holding ability, and excellent yield potential. Large 8-8.5" ears are produced on clean, sturdy 6' plants. The ears fill well to the tip with 16-20

Xtra Tender 274

74 days. This Xtra-Tender bicolor sweet corn offers superb eating quality and tenderness. Very refined 8" ears are produced on sturdy plants with few tillers and have 18 to 20 rows of nicely contrasted yellow and white kernels. A dark green husk with a long dark green flags cover the very tender and very sweet kernels well over the tip. Isolation required.

1/4 lb	1 lb	M
\$11.88	\$37.38	\$14.50

Latte

68 days. Is an early maturing synergistic bicolor that has outstanding quality for an early variety. This early hybrid has good cold soil performance with the sweetness, tenderness and flavor of many main season varieties. Its 5'8" plant sets the 7½ to 8" ears at 20" and has intermediate resistance to rust and Stewart's Wilt.

1/4 lb	1 lb	M
\$10.65	\$42.59	\$15.46

Cuppa Joe

74 days to maturity. Is a synergistic bicolor with great quality and extremely high yield potential. It has good cold soil tolerance and produces well filled, large 8 to 8½" ears with 14 to 16 rows of yellow and white kernels. Intermediate resistance NCLB, common rust and Stewart's Bacterial Wilt.

1/4 lb	1 lb	M
\$9.89	\$39.58	\$13.42

Kickoff XR Cor

69 days. Flavorful first-early super sweet (sh2). Excellent seeding vigor. New benchmark for flavor in this maturity slot. Exceptional quality. Large, attractive ears 7 ¾ - 8". Excellent husk package and tip fill. High resistance to common rust.

1/4 lb	1 lb	M
\$10.19	\$40.77	\$15.50

rows of bright white and deep yellow kernels. The ears are tightly covered with an attractive, deep green husk and excellent flags. Isolation required.

1/4 lb	1 lb	M
To Be Determined		

White/Yellow/Ornamental Corn Seeds

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Delectable

84 days. This rigged plant is tolerant to Stewart's Wilt and common rust. It produces large, 8½ to 9" ears very well filled with 18 to 20 rows of delicate, deep yellow and white kernels. Plant it later for fall corn roasts. The large, fancy ears of Delectable are hard to beat.

1/4 lb	1 lb
\$10.58	\$21.16

Café Yellow Corn

68 days. Café's 7 1/2–8 inch ears are stuffed with 14 rows of sunny yellow, tender kernels that are brimming with height-of-the-season, sweet flavor. It also handles cooler soil temperatures better than other synergistic varieties.

1/4 lb	1 lb	M
\$9.15	\$36.50	\$14.35

Silver King

82 days. Plant produces good yields of delicious sweet white corn. Ears are 8" long and have 16 rows of white kernels. Disease Resistant: Stewart's Wilt, Northern Corn Leaf Blight, Common Rust. Plants. Requires warm (65°F/18°C) soil to germinate properly.

1/4 lb	1 lb
\$11.16	\$22.32

Fiesta

100 days. Bright and showy. A must for your autumn decorations. Multicolored ornamental corn. Husk color ranges from light green to deep purple. Note: isolate ornamental corn from other corn to prevent cross pollination.

1/4 lb	1 lb
\$8.83	\$17.66

Silver Queen

88 days. The best eating older SU variety. At one time was the most popular white hybrid. Its 8-8½" ears have good eating quality.

1/4 lb	1 lb
\$8.90	\$17.80

Bodacious

75 days. Very high quality flavor and sweetness that holds for days after picking. Its wide adaptability in northern latitudes, early maturity and consistent performance has made it the most popular variety in its class.

1/4 lb	1 lb
\$10.55	\$21.10

Top Pop

100 days. The vigorous, upright plants of this hybrid produce big crops of good sized yellow ears. Its deep kernels pop to large sunbursts that are tender and delicious.

1/4 lb	1 lb	M
\$5.74	\$22.96	\$5.50

Field Corn Types

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

SC 928AQ

Days: 92

- Outstanding yield potential
- Widely adapted hybrid for the Eastern Corn Belt
- Excellent stalks, very good roots
- Best performance on average or better soil types

SCS 1030AMXT

Days: 103

- 103-day hybrid w/Eastern adaptation
- Consistent multi-year performance
- Excellent drought tolerance
- Exceptional plant health and staygreen

SCS 10HR43

Days: 104

- Widely adapted yield leader for maturity
- Proven, consistent performance in SCI testing
- Outstanding agronomics and disease tolerance

SCS 1043

Days: 104

- Conventional, non-Roundup Ready
- Widely adapted yield leader for maturity
- Proven, consistent performance in SCI testing
- Outstanding agronomics and disease tolerance

SCS 1087Q **NEW**

Days: 108

- Elite genetics with good plant health
- Drought tolerant
- Girthy ear with nice flex

SG 1139AMXT

Days: 113

- New Eastern Corn Belt yield leader
- Excellent drought tolerance
- Moderate stature hybrid w/exceptional standability
- Very good foliar disease resistance, and staygreen

Plants – Not Just Seeds

Minimum order for plants is by crate or box, which is 500 to 750 plants

Seeds are purchased 15% over the required amount.

Example: A 1,000-plant order would need 1,150 seeds purchased.

1st Shipment:

Order by March 15th Arrival May 20th

2nd Shipment:

Order by April 15th Arrival June 20th

Some of the varieties that are ordered are:

Mountain Fresh, Pony Express, and Celebrity Tomatoes
King Arthur, Declarations Peppers
Epic Eggplants
Athena and Aphrodite Melons

If we can get the seed, we can get you the plants.

Prices are determined at the time of order.

ONION SETS

Red Onions.....\$4.30 per lb.

White Onions\$4.20 per lb.

Yellow Onions.....\$4.10 per lb.

Last date to order is **February 18**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **March 20**. Date is subject to change based on weather conditions.

Now is the time...

Correct your soil pH now to increase fertilizer efficiency, and maximize nutrient availability for planting.

With the increased cost of fertilizer, lime application is extremely important to make your fertilizer dollars most effective. Long Island Cauliflower is your one stop shop for all your Hi-calcium and Hi-magnesium liming needs.

Ask about our high quality damp lime, Ag-16, designed to be applied with a spinner-type spreader. Ag-16 has a moisture level around 4%. Don't waste your money buying water.

Products available:

- * Dry lime - Delivered & Spread
- * Calcium & Magnesium 50# bags
- * Barn Dri™ 50# bags

Onions

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Texas Supersweet

Yellow, globe shaped. The perfect onion to add to your garden. They have an off-white flesh and are very sweet and flavorful. Known for its great flavor and large size, disease resistance.

Storage: 2 - 3 months

Texas Early White

White, globe-shaped. If you want a white onion that has a great reputation for ease of growing, flavor, and disease resistance.

Storage: Approx. 2 months

The Texas Legend

Yellow, globe-shaped, sweet. Matures 10 to 14 days earlier than the Texas Supersweet. Revered for its uniformity. Specifically bred for more healthful benefits.

Storage: 3 - 4 months

Yellow Granex

Yellow, semi-flat, sweet, hybrid. They will be the sweetest variety in your garden! This variety was approved through vigorous testing to be allowed to be called a Vidalia onion.

Storage: Approx. 1 month

Candy

Our most popular variety! Yellow, globe-shaped, sweet, hybrid. The most popular and recommended variety we offer! This onion is great for anyone that has never had much success growing onions.

Storage: Approx. 3 months

Red Candy Apple

Deep red, flattened globe shape, sweet, hybrid. A reliable red intermediate day onion year after year.

Storage: Approx. 2 - 3 months

Highlander

Yellow, slightly flat globe shaped, sweet, hybrid. This is the main variety planted by large onion farmers in the Northeastern United States for early marketing.

Storage: Approx. 4 - 5 months

Walla Walla

Yellow, semi-flat, sweet. A customer favorite for years for its flavor and ease in growing. This is one of our best selling long day onions.

Storage: Approx. 1 month

Yellow Spanish

Yellow, globe shaped, mild. They grow quickly without much effort. This is the favorite onion grown by commercial growers in northern states because it makes uniformly large, sweet bulbs.

Storage: Approx. 4 months

Red Wing

Red, globe shaped, slightly pungent, hybrid. Simply the best long day red onion grown in the Northern areas. Deep internal red color continues to develop during storage.

Storage: Approx. 8 - 10 months

Ringmaster

White, globe shaped, mild. Has large bulbs with firm white rings surrounding a single center. The sweet and mild with its large, dark green tops is also a favorite for green onions.

Storage: Approx. 4 months

1 to 4 Bundles

\$7.10/bundle

5 to 29 Bundles

\$6.50/bundle

30 Bundles (or 1 box)

Inquire for large orders

Roughly 50-75 plants per bunch.

15 Bundles or More: Price to be determined

Alisa Craig

Yellow, globe shaped, sweet. This heirloom onion is by far the largest onion you can grow in a short growing season.

Storage: Approx. 1 month

Copra

Yellow, globe shaped, slightly pungent, hybrid. Sweetest tasting storage onion available! Best storage onion for

Northeast and Northwest. Normally it will make a nice round, hard 3" onion.

Storage: Approx. 10-12 months

Red Zeppelin

Dark red, globe shaped, slightly pungent, hybrid. It is brilliantly colored throughout, but it will store up to 8 months! A balanced combination of flavor and shelf life.

Storage: Approx. 6 - 8 months

Lancelot Leeks

Long, white shafts have blue/green upright flag. As long as you keep blanching them (throwing dirt up on the shaft), they will continue to grow. These long 12-14" shafts are ideal for appearance and flavor.

1-4 Bundles

\$8.35/bundle

30 Bundles (or 1 box)

\$TBD/bundle

Roughly 50-65 plants per bunch.

Last date to order is **March 15**. Available week ending **April 19**.

Date is subject to change based on weather conditions.

Strawberries

AC Wendy = 1

This early-season variety was developed by the Kentville Research Station in Nova Scotia. The berry is wedge-shaped to conic with firm, bright, red-colored flesh. Wendy has an excellent fresh flavor. This early season variety's attractive, high quality berries maintain their large size through several pickings.

Galletta = 2

It ripens early season and produces large sized berries. Attractive, glossy fruit has excellent flavor. Galletta is highly productive and holds fruit size well through the season. The plant is vigorous and shows tolerance to foliage diseases. It has tolerance to red stele disease. This is a variety that will grow in heavy soil.

Earliglow = 3

"Wonderful strawberry flavor" is this variety's trademark. Earliglow's fruit has a very firm, glossy skin, medium firm flesh and medium size. Its sweet flavor makes the variety excellent for fresh eating and freezing. Fruit size decreases as the season progresses. Earliglow plants are very vigorous and runner well. This variety has good resistance to red stele and intermediate resistance to Verticillium wilt.

Honeoye = 1

Has been a top variety for over 30 years. It combines winter hardiness, high productivity, good appearance and color, with an excellent, firm, large-sized berry. The large berries are easy to pick and produce high yields over a long fruiting season, making it our most consistent berry producer. Optimum flavor is produced by growing this variety in medium to light soil. It's a vigorous plant with no soil disease resistance.

Yambu = 1

Is an early mid-season variety, ripening similar season to Honeoye, one of its parents. Plants are very vigorous with dark green color and we have not experienced foliage disease pressure to this point. Yambu has no special nutrient requirements. Fruits are bright red color, attractive, with uniform shape and glossy skin. Yambu fruits for a long season and has shown to be very productive.

Cavendish = 2

Is the result of a cross between two varieties known for their winterhardiness and attractive, large fruit. It produces high yields that ripen over a long growing season. Excellent flavor and overall quality of the fruit

makes this variety a good choice for commercial and home use. Cavendish is highly resistant to red stele and has some resistance to Verticillium wilt.

Darselect = 2

Is a highly productive, widely adapted variety for plasticulture or matted row production Darselect is rated as good to excellent for size, color, appearance, and plant vigor. Its sweet, tasty fruit was rated very good for flavor and firmness. Has shown some susceptibility to leaf diseases. Darselect requires good amounts of nitrogen, and appropriate amounts of magnesium and potassium during fruit growth to enhance its performance.

Jewel = 3

A top mid-season variety, recommended for commercial growers and home gardeners. Jewel has large berries with superb quality and flavor. Jewel performs well over a wide range of growing conditions. Care must be taken at renovation to maintain a good plant stand.

Flavorfest = 1

Is a mid-season variety, adapted to both plasticulture and matted row production. Fruits are an attractive bright red color with an excellent flavor profile. Berries are large and hold their size through the season. Plant is vigorous and shows excellent disease resistance to red stele and leaf diseases. Flavorfest will also be a good alternative for organic producers and in conditions where good plant vigor is required.

Dickens = 1

Produces large, firm fruit that ripen in late mid-season starting at the end of the Jewel season and continuing for 10 days after Jewel. The fruit has a short conic shape and produces multiple fruiting laterals. This variety fruits to a good sweet flavor with a bright red skin color and red interior. Productivity has been very good in trials exceeding Jewel and Winona, with larger average fruit size. In trials in Ontario, Dickens showed good Phytophthora root rot resistance in replant sites and good vigor through renovation.

Cabot = 2

Is known for its huge berries, excellent flavor, winter hardiness and disease resistance. It is by far the best tasting big berry ever! Results indicate Cabot is best adapted for northern locations and where very large fruit size is required. First fruits may split or be rough. Plants are vigorous but may not run freely, indicating closer spacing may be required.

(Strawberries continued on next page)

1 = Patented

2 = Un-Patented

3 = Open

Strawberries

Mayflower (EM-995) = 1

Is a highly productive, late mid-season variety which develops firm, high-quality berries. During a very wet fruiting season, Mayflower was identified as a variety that performs well under difficult conditions. It is tolerant of red stele and has proven to be a consistent, late mid-season performing variety.

Clancy = 1

Clancy is a very vigorous, late mid-season variety, similar in season to Cabot. The berries are round and conical in shape with dark red color and a good flavor. Fruit is firm, similar to Jewel. Clancy is adapted to a wide range of conditions.

Rutgers Scarlet* = 2

Trial results indicate that Rutgers Scarlet is very promising when good flavor and quality is required. The fruit is large, firm and holds its size through the season. Adapted for matted row or plasticulture production, Rutgers Scarlet has shown good vigor, tolerance to leaf diseases and responds well to renovation.

Malwina* = 1

Is a high quality, very late season variety. Fruits are glossy, and dark red having excellent flavor with high Brix readings. Berries are large and hold berry size well through the season. Regular pickings are suggested to maintain fruit firmness. With its very vigorous growth habit, nitrogen fertilizer needs to be managed to avoid excessive vegetative growth. Malwina shows resistance to mildew and tolerance to Verticillium wilt and red stele. Malwina is an excellent variety to extend the strawberry season.

AC Valley Sunset* = 1

A late-season variety that will ripen 5-7 days later than Cabot. Plant shows good vigor with no apparent foliage disease concerns. Berries are lighter red, shiny and large-sized. Flavor and yield are very good. With its softer skin, fruit is best suited for local, fresh-market to extend the season.

Evie-2 = 3

Commercial growers will want to plant this variety. This day-neutral is easier to grow, higher yielding and less sensitive to the warm summer temperatures that shut down day-neutral production in the East and Midwest. Berries have an attractive red color, good flavor and maintain good size. In fruiting trials, Evie-2 produced the largest spring crop of any day-neutral variety we have tested to date.

Albion = 1

Produces very large fruit that is mostly conical, very firm and red in color. Its flavor is very good for a day-neutral. To get the high yields it is capable of producing, this variety will need a stronger watering and nutrient program than any other everbearer. Wider plant spacing will deliver the largest berries.

Seascape = 1

This day-neutral has been highly successful for north eastern growers for summer and fall production. The plants have the potential to be the most productive of any day-neutral. The berries are large, firm and have good flavor when picked ripe from the plant. Seascape is considered by our customers to have the best flavor of any of our everbearers.

Blueberries

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Reka

Reka Blueberry is one of the fastest growing and most adaptable varieties we have seen. A very vigorous variety, it grows well in light sandy soils, peat and heavier clay loams and is more tolerant to wetter ground than many other varieties. Fruit is an attractive dark-blue color and the plant produces large crops. Its winter hardiness is rated equivalent to Bluecrop.

Berry Size: Large

Firmness: Firm

Flavor: Excellent

Winter Hardy: Good

Bluecrop

The leading commercial blueberry variety grown. It produces high yields of large, bright blue berries that are firm and grow in large clusters. The berry flavor is superb, fresh or frozen. Bluecrop is known for its hardiness, vigor and consistent production. The plant grows to a height of 4 to 6 feet.

Berry Size: Large

Firmness: Very

Flavor: Excellent

Winter Hardy: Excellent

Jersey

Jersey blueberry is a late-season variety that is easy to grow, high-yielding, and one of the oldest and most widely grown blueberry varieties. The berries are dark blue, medium in size, and very sweet. A tall and well-shaped bush, it has excellent ornamental value.

Berry Size: Medium

Firmness: Firm

Flavor: Excellent

Winter Hardy: Excellent

Blue Ribbon

Blue Ribbon is an early to mid-season selection released primarily for the high quality, hand harvest, fresh market. Its most notable attributes are high yields of firm, light blue, flavorful large berries and good postharvest shelf life. Blue Ribbon is a high yielding, early season berry with exceptional quality. It has performed well across several environmental conditions. We envision Blue Ribbon primarily as a fresh berry with a moderate concentration of ripening, similar to Legacy.

Berry Size: Medium

Firmness: Firm

Flavor: Good/Excellent

Winter Hardy: Good

Top Shelf

Top Shelf is notable for its very large, flavorful, firm fruit. While similar to Draper, Top Shelf seems to excel in areas such as plant vigor, fruit size and flavor. We recommend Top Shelf for commercial plantings in high chill regions with milder winters. Top Shelf is a high chill cultivar that has performed excellently in all commercial trials planted throughout Europe, even in high chill regions where winters are not too cold. It has superb fruit quality catching the attention of many European marketers. It is a strong plant, easy to prune, and has high yields at a young stage, mainly due to its very large fruit size.

Berry Size: Medium

Firmness: Firm

Flavor: Good/Excellent

Winter Hardy: Good

Last Call

A very late season northern Highbush, ripens in the same window as Elliott. This vigorous, upright bush produces high yields of large berries with a classic sweet and slightly aromatic blueberry flavor. Although primary use is for commercial fresh production, it is also recommended for processed or local market growers wanting to extend their harvest season. Last Call is very vigorous with a good upright growth habit. It allows growers to extend their season because of its very late ripening season.

Berry Size: Large

Firmness: Firm

Flavor: Good

Winter Hardy: Good

Blueberries

\$18.40 per individual. Discount after 10 plants.

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

Blackberries

Chester

Considered one of the more winter hardy and productive thornless varieties available, produces large, high-quality fruit that ripens in early to mid-August. Fruit has good flavor and does not soften or lose its shiny black color in hot weather. Chester plants are vigorous and show resistance to cane blight.

Berry Size: Large

Firmness: Firm

Flavor: Excellent

Triple Crown

The plant is semi-erect and thornless and bears large, flavorful fruit. Early trials indicate that it may ripen earlier than Chester and is similar to Chester in winter hardiness. Triple Crown would be a good choice to help extend the blackberry season for home gardeners.

Berry Size: Large

Firmness: Moderate

Flavor: Excellent

Prime Ark® Freedom

Prime Ark® Freedom is the fourth release from Dr. John Clark and University of Arkansas Primocane Breeding Program. For floricanes fruiting, it has very large fruits, larger than Natchez, with excellent flavor. It also ripens exceptionally early on floricanes (9-11 days earlier than Natchez). Fruit size and total yield is similar to the Prime Ark® 45. Freedom is a great choice for local commercial distribution and home gardens. It is not recommended for the shipping market. Prime Ark® Freedom requires "tipping" to achieve the highest yields and performance.

Berry Size: Large

Firmness: Moderate

Flavor: Excellent

Blackberries

\$32.80 per bundle (5 plants per bundle) Come in 32 liner size.

Raspberries

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

TulaMagic®

TulaMagic® raspberry is very vigorous and shows low susceptibility to Phytophthora root rot disease. Fruits are large and have good firmness with an attractive light red color. Flavor is rated very good with high raspberry aroma. TulaMagic® for organic producers and for soil sites susceptible to Phytophthora root rot disease. Zones 5 – 7.

Berry Size: Large

Firmness: Firm

Flavor: Good

\$18.20 per bundle

Polana

Polana allows you to grow fall varieties in more northern locations and still produce a great crop. Its berries are highly productive, large, glossy in appearance, coherent, with good flavor. Canes are vigorous and grow shorter than those of Heritage. Ripens early August in southern New England. A great choice for early fall raspberries. Polana needs extra fertilizer in May and June.

Berry Size: Medium/Large

Firmness: Moderate

Flavor: Good

\$18.20 per bundle

Himbo Top®

This variety produces extremely large, firm, bright red fruit that does not darken. Berries have good flavor, are conic shaped, have small, well-constructed drupelets and are easy to pick. This variety is extremely vigorous and will require less fertilizer. We feel it has the potential to be the most productive of any variety we offer today.

Berry Size: Very Large

Firmness: Firm

Flavor: Good

\$18.20 per bundle

Anne

Anne has special characteristics. Anne is a large-fruited fall bearer that ripens at the same time as Heritage. Fruit holds a pale yellow color and is proving to be highly productive. Anne's excellent size, appearance, and very sweet flavor make it an excellent choice for a yellow fall bearer.

Berry Size: Large

Firmness: Firm

Flavor: Excellent

\$18.20 per bundle

Prelude

Prelude is identified as the earliest ripening summer red raspberry, ripening in mid-June under NY conditions. Although Prelude is also fall-bearing, it produces the biggest portion of its crop in the spring. Very winter hardy and vigorous, Prelude berries are round-conic, coherent, with very good flavor. An excellent choice when early fruit and quality are required.

Berry Size: Medium/Large

Firmness: Firm

Flavor: Excellent

\$18.20 per bundle

Jewel

Jewel is our most popular black raspberry variety. It produces excellent yields of superb quality berries. The fruit is glossy black in color, a large size, and has a rich raspberry flavor. It is an excellent choice for use in jams and jellies. Jewel is winter hardy and a very reliable choice.

Berry Size: Large

Firmness: Firm

Flavor: Good

\$32.10 per bundle

Heritage

Heritage was the standard variety for production and high-quality fruit by which fall-bearing varieties were judged. The fall crop is highly productive and ripens from the end of August through October, depending on your location.

Berry Size: Medium/Large

Firmness: Firm

Flavor: Good

\$18.10 per bundle

Raspberries: 5 per bundle
Discount after 4 bundles
We offer large order discounts.

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

Asparagus

Jersey Knight Asparagus

One of the New Jersey asparagus hybrids, Jersey Knight is extremely vigorous, has large succulent spears, and quickly attracts a loyal following. The flavor is excellent, and the plant is resistant to rust, crown rot and fusarium. It also performs equally well in heavy, clay-like soils.

Rhubarb

Purple Passion Asparagus

It is a unique asparagus variety especially suited to the asparagus enthusiast, whether home gardener or commercial grower. Its special, attractive purple color, flavor and tenderness distinguish this variety from others. It has productive yields. Different plant spacing is 6 to 8 inches apart in the row—instead of the usual 12" spacing—will increase production.

Horseradish

Millennium

Has been productive, with high quality spears, tender, and has good flavor. Thought to be best adapted to heavier soils, but results from our grower survey indicate success with a wide range of soil types. As the Jersey line of asparagus is not going to be reproduced after this year it would be a good time to try this one.

Asparagus: \$25.65 per bundle 25 per bundle

MacDonald Rhubarb

This very vigorous, upright growing strain produces large, tender stalks and has acceptable red color. Shows resistance to root-rot problems.

Rhubarb:
\$10.55 per individual

Big Top Horseradish

Big Top for its size, vigor, wide adaptability and resistance to foliage diseases, rust and bacterial spot (all common problems in horseradish). These horseradish plants are top performers; a few roots will last a lifetime!

Horseradish:
\$19.50 per bundle
5 per bundle

Asparagus, Rhubarb, Horseradish:

Last date to order is **April 15**. Orders will still be accepted, but after that date the amounts and varieties cannot be guaranteed. Available week ending **May 8**.

Date is subject to change based on weather conditions.

Planting Asparagus Crowns

Most people will turn to planting asparagus crowns when considering how to make an asparagus bed. Planting crowns will establish your asparagus bed faster so that you can harvest the asparagus sooner.

When the asparagus arrives, it will be dry looking. Soak it in tepid water for two to three hours before you're ready to plant. Asparagus planting instructions recommend that you plant the crowns 8 to 12 inches apart. Cover with about 2 inches of soil. Water the bed well after planting asparagus crowns. Be sure to provide sufficient water until the crowns show sprouts.

Sweet Potato

PRICES MAY CHANGE WITHOUT NOTICE DUE TO COST AND AVAILABILITY.

Beauregard

90-100 Days. Green heart-shaped leaves, blooms prolific rose-colored skin and orange flesh. Very good yields, resistance to white grub, soil pox. Susceptible to root-knot, nematodes; bacterial soft rot; slow sprouting. Stores well, high % No. 1 roots.

\$14.20 per Bundle/25 per Bundle

O'Henry Sweet Potato

90-100 Days (white). The O'Henry Sweet Potato has a pale copper skin, almost like a potato, but don't be fooled. This tater's white flesh is sweet, creamy and ideal for soups and stews. Has a different look from the other darker-skinned sweet potatoes.

\$14.20 per Bundle/25 per Bundle

Japanese Red

105 Days (white). A light red to deeper red outer skin color covers a dense flesh that has a low moisture content. Unlike some potatoes that become brown after they have been peeled, the Japanese Sweet Potato can be cut or cubed and left standing for a half hour or a little longer without browning.

\$14.50 per Bundle/25 per Bundle

Covington Sweet Potato

100 Days. A favorite for mashing or roasting, the Covington Sweet Potato has rose-colored skin and supersweet orange flesh. Smooth Orange, very good yield. Resistance to Russet Crack, Southern Root Knot, Nematode.

\$14.70 per Bundle/25 per Bundle

Bonita Sweet Potato

90-100 Days (white). Light tan skin with a pink cast at harvest; fades to tan in storage. Flesh color is white with a tinge of yellow. Uniform shapes with good yields of #1's.

\$14.50 per Bundle/25 per Bundle

Orders are taken starting the **end of March to May 15** for delivery during the **first or second week of June**. Varieties cannot be guaranteed after **May 15**.

nsainsure.com

Garlic and Shallot Varieties

German White Garlic

This is a very sturdy porcelain type of hardneck garlic. They grow fairly large and have an excellent strong flavor that becomes sweet and mild when cooked. The outer bulb wrappers are often very white to milky and light tan. The scapes they produce in the spring coil in all kinds of ways all straighten up and become vertical.

\$16.75 per lb.

German Red Garlic

This is a beautiful hardneck garlic from the rocambole family of garlics. There are 6 to 9 good-sized cloves situated around the central stem. The color of the skin on the cloves is usually a brilliant red and it has a hot and spicy flavor not to be missed. Many people consider them their favorite garlics because of their very rich taste. The scapes are thick and flavorful, often making 2 to 3 curls before turning up.

\$17.50 per lb.

Polish White Softneck

A great garlic for braiding. This is a traditional favorite with New York's Italian market gardeners. The skin has a purple blush. It is said to be substantially more winter-hardy and more productive and disease resistant in the North and East. Averages 6 cloves per bulb.

\$15.75 per lb.

Bavarian

Bavarian is a hardneck garlic in the Rocambole family. Bavarian is a strong garlic with a hot bite when raw that produces large dark purple skinned cloves. We really love the flavor of this one; the heat mellows a bit with cooking but still provides a great garlic presence and a little zing. It is a winter hardy variety suited well for cold climates. Stores up to 6 months.

\$16.50 per lb.

Music Garlic

Limited. Good flavor, sweet and pungent, very hot when eaten raw. A very consistent performer here in the colder areas with large bulbs and typically 4 to 6 cloves with a pinkish blush to the skin. Mildly hot, easy to peel. Plants are vigorous and tall with large scapes.

\$16.50 per lb.

Elephant Garlic

Late Season. These huge cloves produce softball-sized heads. The flavor is mild and suitable for many recipes. The truly impressive plants easily reach 4 to 5 feet and the flowers dry nicely for arrangements. Remove the flower head to promote larger clove size.

\$14.00 per lb.

French Shallots

French production of Jersey 'half long' types with long, rather than rounded, bulbs that are often referred to as 'banana' shallots. The shiny copper-skinned bulbs with crisp, pink-tinged flesh make this a favorite with exhibitors. Is equally popular in the kitchen for its superb sweet taste. An excellent variety for Autumn planting with good storage potential.

\$12.50 per lb.

Garlic and Shallot Varieties:
Orders are taken
starting the **end of June to**
September 15
for delivery during the **second**
week of October.

Fungicide

- Labeled for use on a wide range of vegetable and fruit crops¹.
- Controls several diseases caused by fungi and bacteria.
- Badge SC is a liquid. Badge X2 is a dry water dispersible granular formulation. Badge X2 is NOP and OMRI certified.
- The patented Badge formulations provide superior mixing in cold water and low volume applications, and enhanced wash-off resistance.
- Less blue residue for more desirable fresh produce.

¹See label for crops & use restrictions

- A new plant extract based fungicide that desiccates fungal hyphae on contact.
- Target pests include, but are not limited to: Botrytis, Powdery mildew, and Monilinia.
- Labeled in all Northeast States.
- 4 hour REI, 0 day PHI, US tolerance exempt, NOP compliant and OMRI-listed

- Two in one - a powerful miticide and fungicide in one product!
- Alternative mode of action for Powdery mildew control in certain fruits and vegetables.
- Powerful Miticide (IRAC 21) controlling a wide range of mite species.
- Rapid knockdown on contact across many mite families.

- Controls many broadleaf weeds and nutsedge.
- Highly active at low use rates
- Flexible application timing: pre-emergent, post-emergent.
- Can use under plastic with certain crops.
- Can be applied pre-transplant with certain crops.
- Rainfast within 4 hours of treatment.
- See label for very specific crop uses, restrictions and precautions.

- A premium product with insecticidal, miticidal, and fungicidal contact activity.
- Active on soft-bodied insects such as aphids, whiteflies, mealybugs, and mites.
- Disrupts insect cell membranes causing dehydration and death of affected insects and mites.
- Kills powdery mildew hyphae and spores on contact by dessication.

- A unique premix of Zoxamide and Chlorothalonil in an easy-to-use liquid formulation.
- REI of 12 hours
- Excellent resistance management choice.
- Controls key diseases in potatoes, cucurbits, tomatoes, onions, peppers, eggplant, and okra.
- Provides excellent control of late blight, early blight, downy mildew, and other diseases

Directions to the Long Island Cauliflower Association.

DIRECTIONS: From the Long Island Expressway

Take L.I.E. to Exit 72- bear right onto Rte. 25 East – continue for approximately 3 miles. You will pass the rear entrance to Tanger Outlet Mall. There will be a Dodge Dealership, followed by a gas station and then a large yellow building all on the left. Just past that building make a left onto Marcy Ave. We are the second driveway on the left, before the Railroad Tracks.

DIRECTIONS: From the South fork

Take Flanders Road (Rte. 24) to Riverhead Traffic Circle. Continue on Rte. 24, take the next right to West Main Street. You will see the Riverhead Library, make a left turn heading west on West Main Street, make a right turn at the second right, Marcy Ave. We are the second driveway on the left before the Railroad Tracks.

DIRECTIONS: From the North fork

Take Rte. 25 to Rte. 58 in Riverhead or Take Rte. 48 west to Sound Ave. to Northville Turnpike, make left head south to Rte.58 in Riverhead Continue west on Rte. 58 to the traffic light at Osbourne Ave. Make a left turn go 3 blocks to Marcy Ave. make a right turn. Continue for about ½ mile to Stop sign at Pulaski Street, stay on Marcy Ave. our driveway is on the right just after the Railroad Tracks.

Once again thank you for your continued patronage.
